### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

2. Authorization for this examiner's amendment was given in a telephone interview with Jason D. Eisenberg on Jun.9, 2005.

The application has been amended as follows:

The phrase "U.S. Serial No. 10/\_\_\_\_,\_\_\_\_, filed \_\_\_\_" (page 1, line 14) has been changed to U.S. Serial No. 10/812,978, filed March 31, 2004--.

### REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: The prior art fails to teach a combination of all the limitations as claimed in the independent claim 1, wherein the claimed invention comprising a pupil defining element (PDE); a field defining element (FDE); an optical system; and a pattern generator, wherein light emitted from said light source is transmitted through said PDE, said FDE, and said optical system to form illumination spots that substantially impinge only on desired illumination areas of the pattern generator and are substantially directed away from undesired areas of said pattern generator, as claimed. The prior art does not disclose or fairly suggest, by themselves or in combining with any other reference, to meet a combination of all the limitations as claimed in claims 1,18. Therefore claims 1-23 could be allowable over the prior art of record.
